

Lucky Tex Environmental Policy

Protection of environment is of prime concern and a core business value at Lucky Tex. With a leading role in providing competitive goods, Lucky Tex is conscious of its responsibility towards the need in which it operates by creating, maintaining and ensuring safe and clean environment for sustainable development of the Country.

We believe in:

1. Use eco-friendly, recyclable raw materials.
2. Eliminate or minimize hazardous substances in product design.
3. Ensure product design aligns with environmental regulations.
4. Avoid excess use of plastics and mixed materials in packaging.
5. Engage R&D, suppliers, and customers in eco-design discussions
6. Include environmental criteria in product development decisions
7. Effort to comply all applicable laws, regulation and conditions granted in environmental laws.
8. Implement an environmental compliance management process to capture-deviations and report the violation observed to the management.
9. Determined to implement and follow international / local environmental management, governance process with clearly defined responsibilities in order to achieve continual improvement and communicate environmental performance to the management.
10. Design new procedures and conduct operations with preventive approach and industry best practices to avoid adverse impacts to the human health and the environment.
11. Conserve natural resources specially Water and Gas by their responsible and efficient use in all processes.
12. Take appropriate measures to prevent environmental incidences and control wastages.
13. Promote green plantation in the premises of Lucky Tex and protection of biodiversity at our location to be in harmony with the nature.
14. Ensure appropriate training and awareness on environmental systems, procedures best practices and on shared responsibility towards environmental protection among employees, suppliers and customers.
15. Communicate this policy to the stakeholders.
